About The Retail Coach

The Retail Coach is a national retail recruitment and development firm that combines strategy, technology, and creative expertise to develop and deliver high-impact retail recruitment and development plans to local governments, chambers of commerce, economic development organizations and private developers.

Through its unique Retail360® Process, The Retail Coach offers a dynamic system of products and services that better enable communities to maximize their retail development potential.

Retail:360® Process

Providing more than simple data reports of psychographic and Psychographic trends, The Retail Coach goes well beyond other retail consulting and market research firms' offerings by combining current national and statewide Psychographics and trend data with real-world, "on-the-ground" information gathered through extensive visits to our clients' communities. Every community is different, and there is no "one size fits all" retail recruitment solution. Compiling the gathered data into client-tailored information packets that are uniquely designed for, and targeted to, specific retailers and restaurants who meet the community's needs help assure our clients that they are receiving the latest and best information for targeted retail recruitment efforts — all with personal service and coaching guidance that continues beyond the initial project scope and timeline.

Our Retail:360® Process assures that communities get timely, accurate and relevant information. Translating that data into the information that retailers need and seek assures our clients even better possibilities for tremendous retail growth and success.

Southern Satellites

US Households: 3,856,800

Average Household Size: 2.67

Median Age: 40.3

Median Household Income: \$47,800

WHO ARE WE?

Southern Satellites is the second largest market found in rural settlements but within metropolitan areas located primarily in the South. This market is typically nondiverse, slightly older, settled married-couple families, who own their homes. Two-thirds of the homes are single-family structures; almost a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade, and construction, with higher proportions in mining and agriculture than the US. Residents enjoy country living, preferring outdoor activities and DIY home projects.

OUR NEIGHBORHOOD

- About 78% of households are owned.
- Married couples with no children are the dominant household type, with a number of multigenerational households (Index 112).
- Most are single-family homes (67%), with a number of mobile homes (Index 509).
- Most housing units were built in 1970 or later.
- Most households own 1 or 2 vehicles, but owning 3+ vehicles is common (Index 144).

SOCIOECONOMIC TRAITS

- Education: almost 40% have a high school diploma only (Index 140); 45% have college education (Index 73).
- Unemployment rate is 6%, slightly higher than the US rate.
- Labor force participation rate is 59.1%, slightly lower than the US.
- These consumers are more concerned about cost rather than quality or brand loyalty.
- They tend to be somewhat late in adapting to technology.
- They obtain a disproportionate amount of their information from TV, compared to other media.

Diners & Miners

US Households: 810,000

Average Household Size: 2.54

Median Age: 41.3

Median Household Income: \$42,100

WHO ARE WE?

Close to one in five employed residents work in mining, oil and gas extraction, or quarrying industries. Diners and Miners is a very rural, primarily Southern market. Married-couple families reside in over half of the households, with a quarter of households that live in mobile homes. This socially conservative group earns a living working with their hands. In addition to mining, construction and agriculture are common industries for employment. They take pride in the appearance of their homes and their vehicles. Budget-minded residents enjoy home cooking, but nothing too fancy. This is a gregarious group that values time spent with friends.

OUR NEIGHBORHOOD

- Rural living; homes are sparsely located throughout the countryside.
- These families have roots in their communities and do not move often; over three-quarters of all households are owner occupied.
- Over half of owned homes are worth less than \$100,000.
- Married-couple families make up over half the households.
- A quarter of all housing units are mobile homes; the rest are primarily single-family dwellings.
- High-vacancy rate—nearly one in six housing units is vacant.

SOCIOECONOMIC TRAITS

- They hold strong to religious beliefs.
- Most residents did not go to college.
- They are slow to adopt technology; “if it’s not broke, don’t fix it,” mentality.
- TV is the main source of information, news, and entertainment.
- They make purchases for today because tomorrow is uncertain.
- They are happy to go to work whenever the opportunity presents itself.
- Budgeted vacations are taken within the US, not abroad.

6A LifeMode Group: Cozy Country Living Green Acres

US Households: 3,923,400
Average Household Size: 2.70

Median Age: 43.9
Median Household Income: \$76,800

WHO ARE WE?

The Green Acres lifestyle features country living and self-reliance. They are avid do-it-yourselfers, maintaining and remodeling their homes, with all the necessary power tools to accomplish the jobs. Gardening, especially growing vegetables, is also a priority, again with the right tools, tillers, tractors, and riding mowers. Outdoor living also features a variety of sports: hunting and fishing, motorcycling, hiking and camping, and even golf. Self-described conservatives, residents of Green Acres remain pessimistic about the near future yet are heavily invested in it.

OUR NEIGHBORHOOD

- Rural enclaves in metropolitan areas, primarily (not exclusively) older homes with acreage; new housing growth in the past 15 years.
- Single-family, owner-occupied housing, with a median value of \$235,500.
- An older market, primarily married couples, most with no children.

SOCIOECONOMIC TRAITS

- Education: More than 60% are college educated.
- Unemployment is low at 3.8% (Index 70); labor force participation rate is high at 66.8% (Index 107).
- Income is derived not only from wages and salaries but also from self-employment (more than 13% of households), investments (27% of households), and increasingly, from retirement.
- They are cautious consumers with a focus on quality and durability.
- Comfortable with technology, more as a tool than a trend: banking or paying bills online is convenient; but the Internet is not viewed as entertainment.
- Economic outlook is professed as pessimistic, but consumers are comfortable with debt, primarily as home and auto loans, and investments.

10E LifeMode Group: Rustic Outposts Down the Road

US Households: 1,646,400
Average Household Size: 2.55

Median Age: 40.4
Median Household Income: \$33,000

WHO ARE WE?

Open space, undeveloped land, and farmland characterize Rural Bypasses. These families live within small towns along country back roads and enjoy the open air in these sparsely populated neighborhoods. Their country lifestyle focuses on the outdoors, gardening, hunting, and fishing. They are more likely to own a satellite dish than a home computer. Although a majority of households do have a connection to the Internet, their use is very limited. Those who are not yet retired work in blue collar jobs in the agriculture or manufacturing industries.

OUR NEIGHBORHOOD

- An older market, with more married couples without children and single households, the average household size is slightly lower at 2.55.
- Most residents own single-family homes, or mobile homes (Index 504).
- Most housing was built from 1970 to 1989; vacancy rates are higher due to seasonal housing.
- Residents live in very rural areas, almost entirely in the South.

SOCIOECONOMIC TRAITS

- Education is not a priority in this market. Almost 25% have not finished high school; only 11% have a bachelor's degree or higher.
- Unemployment is very high at 9% (Index 161); labor force participation is low at 47% (Index 76).
- Income is primarily derived from wages; however, dependence on Social Security and Supplemental Security Income is above average.
- Religion, faith, and traditional values are central in their lives.
- Many have a pessimistic outlook of their household's financial well-being.
- They rely on television to stay informed.
